Panasonic Telephone Products
Limited Warranty

Matsushita Consumer Electronics Company or Panasonic Sales Company (collectively referred to as "the warrantor") will repair this product with new or refurbished parts, free of charge, in the U.S.A. or Puerto Rico for one (1) year from the date of original purchase in the event of a defect in material or workmanship. Carry-in or mail-in service in the U.S.A. can be obtained during the warranty period from a Matsushita Service Company (MSC) Factory Servicenter. Please refer to the Servicenter Directory or call 1-800-848-2672, toll free, to locate an authorized MSC Servicenter and mail your product adequately packed and insured. Carry-in or mail-in service in Puerto Rico can be obtained during the warranty period by calling the telephone numbers listed in the Servicenter Directory. This warranty is extended only to the original purchaser. A purchase receipt or other proof of date of original purchase will be required before warranty performance is rendered. This warranty only covers failures due to defects in materials or workmanship which occur during normal use. It does not cover damage which occurs in shipment or failures which are caused by products not supplied by the warrantor or failures which result from accident, misuse, abuse, neglect, mishandling, misapplication, alteration, modification, lightning, line power surges, introduction of sand, dust, humidity and liquids or commercial use of the product, or service by anyone other than an MSC Factory Servicenter or authorized MSC Servicenter, or damage that is attributable to acts of God.

LIMITS AND EXCLUSIONS

There are no express warranties except as listed above. THE WARRANTOR SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF THIS WARRANTY. ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE APPLICABLE WARRANTY PERIOD SET FORTH ABOVE. Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the above exclusions or limitations may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state. If a problem with this product develops during or after the warranty period, you may contact your dealer or Servicenter. If the problem is not handled to your satisfaction, then write to the Customer Service Center at the company address indicated in the Servicenter Directory.

Panasonic

Please read before use.

PQX5620XA-BM S0894S0

Printed in Malaysia
**Connection**

- Modular Jack for single line (RJ11C)
- Handset Cord
- Handset

This unit may not be connected to a coin operated line. If you are on a party line, check with your local telephone company.

---

**Preparation**

1. **Dialing Mode Selector;**
   Set to “TONE”.
   If dialing cannot be done, set to “PULSE”.
   Pulse-or-tone dialing capability.

2. **Ringer Volume Selector;**
   Set to “HIGH”.
   LOW: The ringing sound will be low.
   OFF: The telephone will not ring.

3. Insert the batteries observing the correct polarity. (See page 8.)

---

- Replace all the batteries every 10 months, or misoperation may occur.
- If the batteries are not installed, programming and speakerphone operation cannot be done.
- Do not use rechargeable (nickel-cadmium) batteries. They are partially different in shape and performance and may fail to ensure proper function operation and may damage the unit.

---

**Manual Operation**

- **Dialing**
  - Lift the handset or push the button, then dial the phone number.

- **Receiving**
  - Lift the handset or push the button.

- **Redialing**
  - If a line is busy, pushing the button enables you to redial once.
  - When using the hands-free (Automatic Redialing);
    - Depressing the Redial button enables you to redial up to 15 times within 10 minute-period.
    - To cancel automatic redialing, push the button.

If the Mute Indicator lights when speaking, push .
Automatic Dialing

Each Memory button consists of two functions, they are upper and lower memory locations. Each location (Upper - Lower) is capable of storing 16 digits.

CAUTION:
Please do not press any buttons of "automatic dialer" before programming. This is to prevent misoperation of auto dialer function.

Storing Phone Numbers

Be sure the handset is on the cradle, the SP-PHONE button is off and batteries are installed (See page 8).

1. Push until the Store Indicator lights.

2. Home Use (into the upper)
   - Push button ➔ 1 ➔ 7 ➔ Store
   - Office Use (PBX) (into the lower)
     Depressing the Lower Station button must be done first.
     - Push ➔ 7 ➔ Phone no ➔ 9 ➔ Store

3. After storing all the numbers,
   - 28 telephone numbers, up to 16 digits each, can be stored in the upper and lower memory stations.
   - To change a stored number, repeat the steps of "Storing Phone Numbers".

Dialing

1. Lift the or In hands-free mode:

2. In using the upper station,
   - Push ➔ Station button

3. When you finish, hang up the or

Correcting an Error while Storing

If you notice an error before pushing the Store button:

1. Push
   - The new entry is cleared and the previous storage remains untouched.

2. Repeat step 2 of "Storing Phone Numbers".

When using the lower station, depressing the Lower Station button must be done first.

Confirming a Stored Number

1. Enter the same number into the same memory station.

2. After is pushed;
   - When the Store Indicator blinks once, the new storage is different from the old one.
   - When the Store Indicator blinks twice, both are the same.

Erasing a Stored Number

Be sure the handset is on the cradle and the SP-PHONE button is off.

Example:
To erase the number stored in the lower position in memory station.

1. Push ➔ until the Store Indicator lights.

2. Push ➔ Station button

Saved Number Redial

The last dialed number can be stored into the Save button before hanging up (e.g. ... If the called line is busy).
This number will be saved until another number is stored again, and can be redialed any time by pushing the Save button.

- This function is useful to store the phone number which you wish to redial after dialing another number.

Storing during a Conversation (Memo Dial)

While having a conversation, another telephone number can be stored into the Memo button.
So you can dial this number by pushing the Memo button any time you like.

- This function is useful to store a telephone number, which is given to you by the other party.

1. While having a conversation, until the Store Indicator blinks.

2. Push ➔ Phone no ➔

Dialing

1. Lift the or In hands-free mode:

2. If you store the new phone number into memory using the "Memo Dial" feature, the previously stored number will be erased.
Dialing

Memory Transfer

Example: To store into upper memory station.
Be sure the handset is on the cradle and the SP-PHONE button is off.

Storing the Last Dialed Number
(Redial Memory Transfer)
The last number manually dialed can be stored into the memory station.
1 \[ \text{until the Store Indicator lights.} \]
2 \[ \text{Press} \]
3 \[ \text{Press} \]

Storing Memo Dialed Number
(Memo Dial Transfer)
The MEMO dial number can be stored into a memory station.
1 \[ \text{until the Store Indicator lights.} \]
2 \[ \text{Press} \]
3 \[ \text{Press} \]

Pause Usage

The Pause button function is needed for line access or computer tone.
- A pause is needed in manual dialing for the purpose of redialing.
To wait for a dial tone
\[ \text{Line access} \]
\[ \text{9 \text{PAUSE} 123...7} \]
One pause is required.
To wait for a computer tone
\[ \text{765...1 \text{PAUSE} \text{PAUSE} 012...6} \]
Two pauses are required.

Combination Dialing

Any combination of dialing methods can be done.
- Automatic and Manual Dialing
- Pulse and Tone Dialing
- Plural memory stations

Mute Operation

Use when you do not want your voice to be heard by the other party.
1 \[ \text{Press} \]
- The Mute Indicator will light.
2 \[ \text{Press} \text{ again.} \]

Hold

To Place a Call on Hold

While having a conversation,
\[ \text{Hold} \]
- The Hold Indicator will blink slowly.
- You may hang up the \[ \text{Hold} \]

To Release a Hold

1 □ When the handset is lifted;
\[ \text{Press} \text{ again.} \]
- When the handset is on the cradle;
- In using the handset;
  Lift the \[ \text{Hold} \]
  or
  - In the hands-free mode;

2 Start talking.

Hands-free

Switching to Hands-free or Handset during a Conversation

You may choose to use the handset or hands-free.

Hands-free \[ \text{Switch to} \] Handset

Lift the \[ \text{Hold} \]
- The SP-PHONE Indicator will go out.

Handset \[ \text{Switch to} \] Hands-free

1 \[ \text{Press} \]
- The SP-PHONE Indicator will light.
2 Hang up the \[ \text{Hold} \]
- Before hanging up, you must push the SP-PHONE button.

Helpful Hints for Hands-free

- If the other party finds it difficult to hear your voice:
  Lower the sound level using the Volume Control or speak louder.
- Absorbing echoes:
  Use in a room that has curtains or carpeting.
- Note:
  If you and the caller speak at the same time, parts of your conversation will be lost.
  To avoid this, speak alternately.
Special Phone Company Services

The Flash button can be used for Call Waiting. For more details please see the brochure issued by your telephone company.

Call Waiting

1. While having a conversation, another party calls and a tone is heard.

2. Push lightly.
   - The first conversation is placed on hold and the second call can be answered.

3. Push lightly again.
   - The first caller can be spoken to again and the second call is placed on hold.
   - If the calling party on hold hangs up, the line is terminated.

You may access some features of your PBX using the Flash button instead of the hookswitch. Push the Flash button lightly in a dial operation. “Flash” can be stored into memory in the same way as “Storing Phone Numbers” on page 3. Memory station can automatically access to features of your host PBX. Push the Flash button at the position where the hookswitch operation is required in a dial operation when programming into memory station.

Wall Mounting

This unit can be mounted on a wall phone plate. If you do not have a modular wall plate installed, we recommend that you consult with your telephone company or installer to have one.

1. Turn over the handset guide.

5. Mount the unit on the wall phone plate.

2. To temporarily place the handset down during a conversation, hook as shown.

Battery Installation

Three AA size batteries serve as the power source to retain the stored telephone numbers in memory.

1. Remove the attaching stand.

2. Insert the three AA size batteries observing the correct polarity.

4. Replace the stand.
   - Replace all the batteries every 10 months, or misoperation may occur.
   - To prevent loss of the stored telephone numbers, replace the batteries within 10 minutes after removing the old ones.
   - Do not use rechargeable (nickel-cadmium) batteries.
**Tarjeta de Referencia Rápida**

**Discado Automático**

Ejemplo: Uso en el Hogar  Número de teléfono 123-4567 en la estación superior

Uso en la oficina  Línea de acceso número 9 y número de teléfono 123-4567 en la estación inferior

**Almacenamiento**

Asegúrese de que el microteléfono esté colgado y de que el botón del altavoz esté desconectado.

1. Levante el ( ).

2. En el caso de la estación superior

   - En el caso de la estación inferior

3. Cuando termine, cuelgue el ( ).

**Llamadas**

**Usando el microteléfono**

1. Levante el microteléfono ( ).

2. El número de teléfono.
   - Cuando la línea esté ocupada, 

3. Cuando termine, cuelgue el ( ).

**Recepción**

Levante el ( ) y hable.

**Sin usar el microteléfono**

Utilice ( ) en vez del ( ) y siga el procedimiento indicado en “Usando el microteléfono”.

**Retención**

Para poner una llamada en retención

Mientras está conversando, ( ).

- Parpadea el indicador de retención.
- Puede colgar el ( ).

Para quitar la retención

1. Cuando el microteléfono esté levantado, ( ) de nuevo.
   - Cuando el microteléfono esté colgado, levante el ( ).

2. Empiece a hablar.

**Sin usar el microteléfono**

Utilice ( ) en vez del ( ) y siga el procedimiento indicado en “Usando el microteléfono”.

Si 28 números de teléfono, de hasta 16 dígitos cada uno, pueden ser almacenados en las estaciones de memoria.

- Para cambiar un número almacenado, repetir “Almacenamiento”.

Troubleshooting Guide

Problem
- The unit does not ring.
- The caller suddenly cannot hear my voice during a conversation.
- I suddenly cannot hear caller's voice during a conversation.
- Redialing or Programming Operation does not function.
- The unit does not keep stored memory.
- Hands-free operation does not function after pushing the SP-Phone button.

Cause & Remedy
- Ringer Volume Selector is set to "OFF". Set to "HIGH" or "LOW".
- Look at the HOLD Indicator. If it is blinking slowly, push the Hold button to resume the conversation.
- Batteries have become weak. Replace all the batteries.

Accessory Order Information
- Replacement parts and accessories are available through your local authorized parts distributor.
- For the authorized distributors in your area, call toll free: 1-800-332-5368.

Others
- If there is any trouble, disconnect the unit from the telephone line and connect a known working phone. If the known working phone operates properly, have it repaired by one of the specified Panasonic Factory Service Centers. If the known working telephone does not operate properly, consult with a telephone company.
- When a Station button is pushed and nothing seems to operate, unplug the telephone cord then replace the batteries.
- Keep the unit away from heating appliances and electrical noise generating devices such as fluorescent lamps and motors.
- The unit should be kept free of dust, moisture and vibration, and should not be exposed to direct sunlight.
- Do not use benzine, thinner, or the like, or any abrasive powder to clean the cabinet. Wipe it with a soft cloth.
- Do not use any handset other than Panasonic handset made for the model KX-T2355.

WARNING:
TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS PRODUCT TO RAIN OR ANY TYPE OF MOISTURE.

CAUTION:
Any unauthorized changes or modifications to this equipment could void the user's authority to operate this device.

If requested by the Telephone Company, inform them as follows:
- FCC Registration No. (found on the bottom of the unit)
- Ringer Equivalence 1.0B
- The particular telephone line to which the equipment is to be connected.

In the event terminal equipment causes harm to the telephone network, the telephone company should notify the customer, if possible, that service may be stopped. However, where prior notice is impractical, the company may temporarily cease service providing that they:
(a) Promptly notify the customer.
(b) Give the customer an opportunity to correct the problem with their equipment.
(c) Inform the customer of the right to bring a complaint to the Federal Communication Commission pursuant to procedures set out in F.C.C. Rules and Regulations Subpart E of Part 68.

The Telephone Company may make changes in its communications facilities, equipment, operations or procedures, where such action is reasonably required in the operation of its business and is not inconsistent with the rules and regulations in F.C.C. Part 68. If such changes can be reasonably expected to render any customer terminal equipment incompatible with telephone company communications facilities, or require modification or alteration of such terminal equipment, or otherwise materially affect its use or performance, the customer shall be given adequate notice in writing, to allow the customer an opportunity to maintain uninterrupted service.
**Important Information**

This telephone provides magnetic coupling to hearing aids.

**Note:**
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Ringer Equivalence No. (REN):**
The REN is useful in determining the quantity of devices you may connect to your telephone line and still have all of those devices ring when your telephone number is called. In most, but not all areas, the sum of the REN's of all devices connected to one line should not exceed five (5.0).

To be certain of the number of devices you may connect to your line, as determined by the REN, you should contact your local telephone company to determine the maximum REN for your calling area.

*If you ship the product*
Carefully pack and send it prepaid, adequately insured and preferably in the original carton. Attach a postage-paid letter, detailing the complaint, to the outside of the carton. **Do NOT send the product to the Executive or Regional Sales offices. They are NOT equipped to make repairs.**

**Product Service**
Panasonic Servicenters for this product are listed on page 14. Consult your authorized Panasonic dealer for detailed instructions.
