The Pacific Northwest Pollution Prevention Resource Center (PPRC) is a public non-profit organization that promotes implementation of pollution prevention in the Pacific Northwest, and through its work in Alaska, Idaho, Oregon, Washington and British Columbia, contributes to our national understanding of pollution prevention. PPRC catalyzes research on pollution prevention, hosts forums, acts as an information clearinghouse, and serves as a link between public and private organizations.

Distribution of this report to other interested parties is strongly encouraged, provided appropriate credit is given to PPRC. For reprint permission, more information on PPRC activities, or additional copies of this report, contact:

PPRC  
1326 5<sup>th</sup> Ave., Suite 650, Seattle, WA 98101  
Telephone: 206-223-1151  
Fax: 206-223-1165  
E-mail: [office@pprc.org](mailto:office@pprc.org)  
Web site: <http://www.pprc.org/pprc>

The PPRC wishes to extend its gratitude to the supporters who make PPRC's work possible:

PPRC is grateful to the many individuals and organizations that provided assistance with this report and the Northwest Industry Roundtable on which it is based.

Special thanks go to Jerry McMahon of American Waterways Operators for providing project guidance and facilitating industry attendance; and to roundtable presenters: Barry Kellems and Rick Moore of Hart Crowser; Rob Reuter and Lisa Zinner of the Washington Department of Ecology; Al Rainsberger of Todd Pacific Shipyards Corporation; Bob Cipra of the Puget Sound Naval Shipyard; and Mike Shepherd of the Trident Refit Facility. Special thanks also go to the vendors that provided information displays and supported the roundtable: Filtration/Treatment Systems Ltd.; Flow International; Maritime Consulting, International; and Stormwater Management.

This report was peer-reviewed by Jerry McMahon, Rob Reuter, Lisa Zinner, Pam Elardo of the Department of Ecology, Al Rainsberger, Barry Kellems, Rick Moore, and David Leviten, formerly with the PPRC staff.

PPRC staff who helped in the organization of the roundtable and in the preparation of this report were David Leviten, Chris Montovino, Jim DiPeso, Chris Wiley, and Madeline Sten.

Above all, PPRC wishes to thank the roundtable attendees (listed in Appendix A) for their willingness to share information, ideas and recommendations that form the basis of this report.

The opinions, findings, conclusions or recommendations expressed in this report are those of roundtable attendees, and do not necessarily reflect the views of PPRC or its supporters.

# Table of Contents

Introduction .....	1
Reasons for the Roundtable .....	1
Washington Shipyard Industry .....	2
Background .....	2
Environmental Issues .....	2
Summary of Pollution Prevention Opportunities .....	3
Roundtable Agenda .....	4
AKART Study .....	4
Background .....	4
Media Testing .....	6
Issues .....	6
Total Cost Assessment.....	7
Alternatives to Abrasive Dry Grit Blasting .....	8
Ultra High-Pressure Water Blasting With Hand-Held Units .....	8
High-Pressure Water Blasting with Robotically Driven Unit .....	9
Wetted Grit Blasting .....	9
Best Management Practices .....	10
BMP Opportunities .....	10
Barriers to Implementation .....	11
Recommendations .....	12
Appendix A: Shipyard Roundtable Attendees.....	14
Appendix B: Environmental Regulations Affecting Shipyards .....	18
Appendix C: Shipyard Best Management Practices .....	22
Appendix D: Contacts and Information Resources .....	29
